

NEW · FREIGHT FORWARDING

Run freight like you run your warehouse.

Now native in Easy3PL.

Quote, book, dispatch, track, and get paid on every move —
all inside the same system that runs your inventory.

**Ready to bring your freight in-house?**Talk to Easy3PL · www.easy3pl.com**REQUEST A DEMO →**

One shipment file. Quote to invoice.

Every move gets a single order of record. Capture the sale, the cost, the carrier, and the status — and see your margin at a glance.

CREATE

From anywhere

Spin up a shipment from an LTL quote, an Easy3PL order, or a warehouse receipt.

CARGO

Cargo & route

Units, weight, commodity class, legs, and pickup/delivery detail — all on the file.

DOCS

Documents

Generate pickup & delivery orders, attach the carrier BOL, and pull carrier PRO refs.

MONEY

Charges & P&L

Buy vs. sell, margin per move, vendor payables, and accessorial review built in.

MOVE

Dispatch & carrier

Assign a carrier, set dispatch status, track it on a dispatch board.

TRACK

Carrier tracking

Milestones pull straight from the carrier and land on the timeline.

COVERAGE

Ship every mode you move.

LTL, TL, FTL, and local delivery — with direct LTL booking through Unishippers right from the app.

LTL

Less-than-truckload

Quote and book LTL directly, download the BOL, and track the PRO.

TL / FTL

Full truckload

Built for full loads and larger moves with full flexibility.

Local

Local delivery

Final-mile and same-region runs handled on the same shipment file.

Why it matters

- ✓ **Stop the spreadsheet juggling.**
No more email threads, forwarding portals, and side-column cost tracking.
- ✓ **See profit on every move.**
Buy vs. sell and margin are next to the shipment, not in a report you never open.
- ✓ **One order of record.**
Quote, cargo, documents, dispatch, and invoicing live under a single shipment file.
- ✓ **Track without third-party tools.**
Carrier milestones land on the timeline — no separate visibility vendor.

Bring your freight in-house.
